PROFESSIONAL SUMMARY

Digital Transformation & Operations Professional with 4.5+ years of experience owning end-to-end procurement, SAP PLM/DMS, and business operations across India, Germany, Netherlands and China. Currently leading cross-border procurement operations at eternal.ag after driving a large-scale SAP DMS transformation at Daimler India Commercial Vehicles. MBA in Operations with hands-on expertise in process automation, UAT, stakeholder management, and cross-functional system integration. Targeting Digital Transformation, Procurement Operations, or Business Operations leadership roles

EDUCATION

2021-2023 | **Master of Business Administration**, Alliance University
Operations Strategy | Supply Chain Management | People Management

2015-2019 | **Bachelor's in Electrical and Electronic Engineering**, New Horizon College of Engineering

SKILLS

Technical Skills	SAP PLM/MM/DMS, Asana, Microsoft Teams, Excel Automation, Power BI, Business Process Design, Workflow Automation, Procurement Systems
Soft Skills	Problem-Solving, Ownership & Accountability, Stakeholder Management, Cross-functional Collaboration, Communication, Decision-Making
Core Competencies	Digital Transformation, Business Process Automation, Procurement & Supply Chain Operations, Process Optimization, End-to-End Operations, Vendor & Supplier Management, UAT & System Rollouts, Operational Analytics

EXPERIENCE

Senior Specialist - Procurement & Operations

eternal.ag

Jun 2026 - Present

Bangalore, KA, IND

- Led end-to-end procurement operations across India, Germany, and China, managing sourcing, RFQs, POs, supplier coordination, order fulfillment, invoicing, and delivery with focus on cost and lead-time optimization.
- Standardized and automated procurement workflows and documentation across RFQs, POs, receipts, NDAs, and service agreements using Excel, improving process consistency, accuracy, and traceability.
- Developed a part-to-invoice-to-bot traceability framework, establishing structured procurement data and enabling integration across Finance, Procurement, and PLM systems.
- Digitized procurement request management through Asana and Microsoft Teams, reducing individual request turnaround from 30-40 minutes to 2-3 minutes (93% reduction) by replacing manual processing with a self-service form and automated order-status updates.
- Established cross-border logistics and compliance operations across India, Germany, China, and the Netherlands - owning pickup scheduling, DHL/Blue Dart shipment tracking, and customs documentation for robot-parts shipments - streamlining the process to eliminate customs hold-ups and reduce shipment turnaround time from 2-3 weeks to 3-5 days.

Senior Manager - IT Operations

Daimler India Commercial Vehicles

Sep 2023 - May 2026

Chennai, TN, IND

- Collaborated with Procurement leadership to digitize procurement documentation and PO validation workflows, implementing Microsoft Teams based digital approvals and e-signatures, eliminating physical documentation and reducing processing time by ~35% while improving compliance and audit traceability.
- Served as SAP PLM Functional Consultant supporting global operations for Mitsubishi Fuso Truck and Bus Corporation, monitoring and scheduling high-volume batch jobs for large-scale financial and product lifecycle data processing, ensuring 99%+ job execution reliability.
- Acted as the primary point of contact for enterprise data operations, resolving data integrity, batch job failures, and system incidents through ticketing platforms while consistently maintaining SLA compliance (>95%) across global stakeholders.
- Translated complex business requirements into detailed Functional Specification Documents (FSDs) and collaborated with PMO, technical teams, and business stakeholders to estimate project timelines and implementation efforts for SAP system enhancements.
- Led functional testing and UAT cycles for multiple SAP modules, validating system changes against business needs and ensuring high-quality releases with minimal post-deployment issues.
- Managed end-to-end SAP Dealer Management System (DMS) operations for 500+ dealers, overseeing dealer onboarding, issue resolution, and performance monitoring across Parts, Service, Warranty, and Sales modules, achieving 95% platform adoption

and 98% system uptime across the dealer network.

- Proactively handled critical dealer and stakeholder escalations, coordinating with cross-functional technical teams to resolve system issues quickly and reducing recurring incidents through root-cause analysis and preventive solutions.
- Built Power BI dashboards and operational reports to track dealer KPIs, claim aging, service SLAs, and warranty analytics, enabling leadership to make data-driven operational decisions and improve service efficiency.

Service Support Representative

Unisys India

Aug 2019 - May 2021

Bangalore, KA, IND

- Monitored IT service performance for a global enterprise client by tracking operational KPIs, incident resolution metrics, and service delivery benchmarks, ensuring 97%+ SLA compliance and maintaining consistent service availability across multiple support functions
- Conducted incident trend analysis using service management tools to identify recurring system and process issues, enabling proactive resolution strategies that improved service stability and reduced repeat incidents.
- Performed root cause analysis (RCA) on recurring operational and technical issues, collaborating with cross-functional teams to implement corrective process improvements that enhanced workflow efficiency by approximately 30%.
- Led continuous service improvement initiatives by analyzing service data, identifying operational bottlenecks, and recommending automation and process optimization strategies to enhance service delivery outcomes.
- Implemented preventive measures and monitoring controls to minimize service disruptions and operational risks, ensuring improved system reliability and consistent adherence to contractual service obligations.

PROJECTS

Procurement & Operations Transformation | eternal.ag

- Planned and delivered a cross-country procurement framework end-to-end — from requirements gathering through documentation standardization to cross-team rollout - coordinating stakeholders across India, Europe and China.

SAP DMS Optimization (Digital Transformation) | DICV

Client: Mitsubishi Fuso Truck and Bus Corporation

- Managed the SAP PLM enhancement roadmap for a global client engagement, owning FSD sign-off, UAT scheduling, and timeline estimation in coordination with PMO and technical teams.

SAP DMS Optimization (Digital Transformation) | DICV

- Owned the phased rollout plan across the dealer network - sequencing UAT, stakeholder training, and go-live — driving adoption from 500+ dealers to full network coverage.

IT Service Excellence (Ecosystem Enablement) | Unisys

- Ran a continuous service-improvement initiative end-to-end - from root-cause investigation through corrective-action rollout — lifting workflow efficiency by ~30%.

LEADERSHIP

- Leading end-to-end operational transformation, taking ownership from process design through automation and implementation across procurement, supply chain, and enterprise operations.
- Led cross-functional digital transformation initiatives securing senior leadership buy-in for SAP DMS roadmap.
- Trusted stakeholder partner driving tool adoption through data-driven execution across ambiguous environments.
